VLS 076 RF SDD

DIMENSIONS

Depth, mm with handle

Shipping volume m3

SPECIFICATIONS

Gross weight, kg (incl. packaging)

Packed dimensions HxWxD, mm

Temperature range (+43°C AMB)

FREEZER SPECIFICATIONS

Water pack freezing capacity, kg/24h

Industrial grade locking mechanism

*incl. solar panels - see our solar panel datasheet

LOADING QUANTITIES

Qty. per 20' / 40' container

Water pack storage capacity, L

Temperature range (+43°C AMB)

Autonomy, hours (+43°C AMB)

EMS level 3 as an option

FEATURES

Storage baskets, no Temperature control

SOLAR DIRECT DRIVEN COMBI

Built-in heating element ensuring that the appliance can maintain stable +2°to +8°C in all ambient temperatures, setting a new industry standard beyond the PQS requirement. The included solar panel kit of 4 x 180W, is connected plug & play, directly to the appliance.

All VLS SDD RF models have been tested and PQS approved according to the newest performance standards. This model comes equipped with our fully integrated remote equipment monitoring system (EMS) as standard. An upgrade to EMS level 3 is available as an option for enhanced monitoring capabilities.

WHO PQS (Performance, Quality, and Safety) ensures that immunization equipment meets international standards. This certification

guarantees quality, reliability, and safety. Non-PQS certified equipment risks poor performance, safety issues, and higher costs.
