

MF180

UPRIGHT DISPLAY FREEZER

Vestfrost Solutions MF 180 is used to display frozen items of food. The frost-free freezer defrosts automatically at regular intervals, thus preventing stored items from being covered in frost or sticking to each other. The heated door ensures that the glass is kept free of condensation and secures visibility.

Products are subject to change due to enhancements and continuous development. Vestfrost Solutions reserve the right to alter any information, without further notice.
