**COMPACT
SERIES**

PERFECT IN-LAB SOLUTION

Small footprint

Compact series from +20°C to -86°C

Many laboratories have limited space and the new Compact series feature personal freezers and refrigerators which fit perfectly on the counter at the work station. In developing the Compact series, it has been a point of emphasis to ensure that the models have low noise and are user friendly, ensuring a health work environment as well as being easy to use in the daily work.

True to our commitment towards a sustainable future, the Compact series has been made to have no negative impact on the environment and are marked with our "Environmental friendly - Icon" as your guarantee. Larger sized cabinets on the market uses more energy, but if the capacity they offer is not really necessary it is worth considering exploring the smaller Compact series from Vestfrost Solutions. Energy savings can be upwards of EUR 60 annually.

COMPACT SERIES

Specifications

R-90	
SPECIFICATIONS	
Dimensions, H x W x D, mm	652 x 595 x 642
Gross volume, Litres	90
